A wonderful day

Many fantastic people have been involved in this collection - cutters, tailors, printers, photographers, quality controllers, factory owners and several people with no title but with a lot of knowledge. The "mimou team" strategy is to work hard, have fun together and to end everyday with the simple words: Thank you for a wonderful day.

We had the pleasure to work with the talented illustrator Amelie Hegardt. It was love at first sight when we saw her illustrations for the first time. We sincerely hope that you will fall in love with her work just as much as we have. This collection have given us many wonderful days, now we wish to pay it forward, giving you countless wonderful days to enjoy it...

love mimou

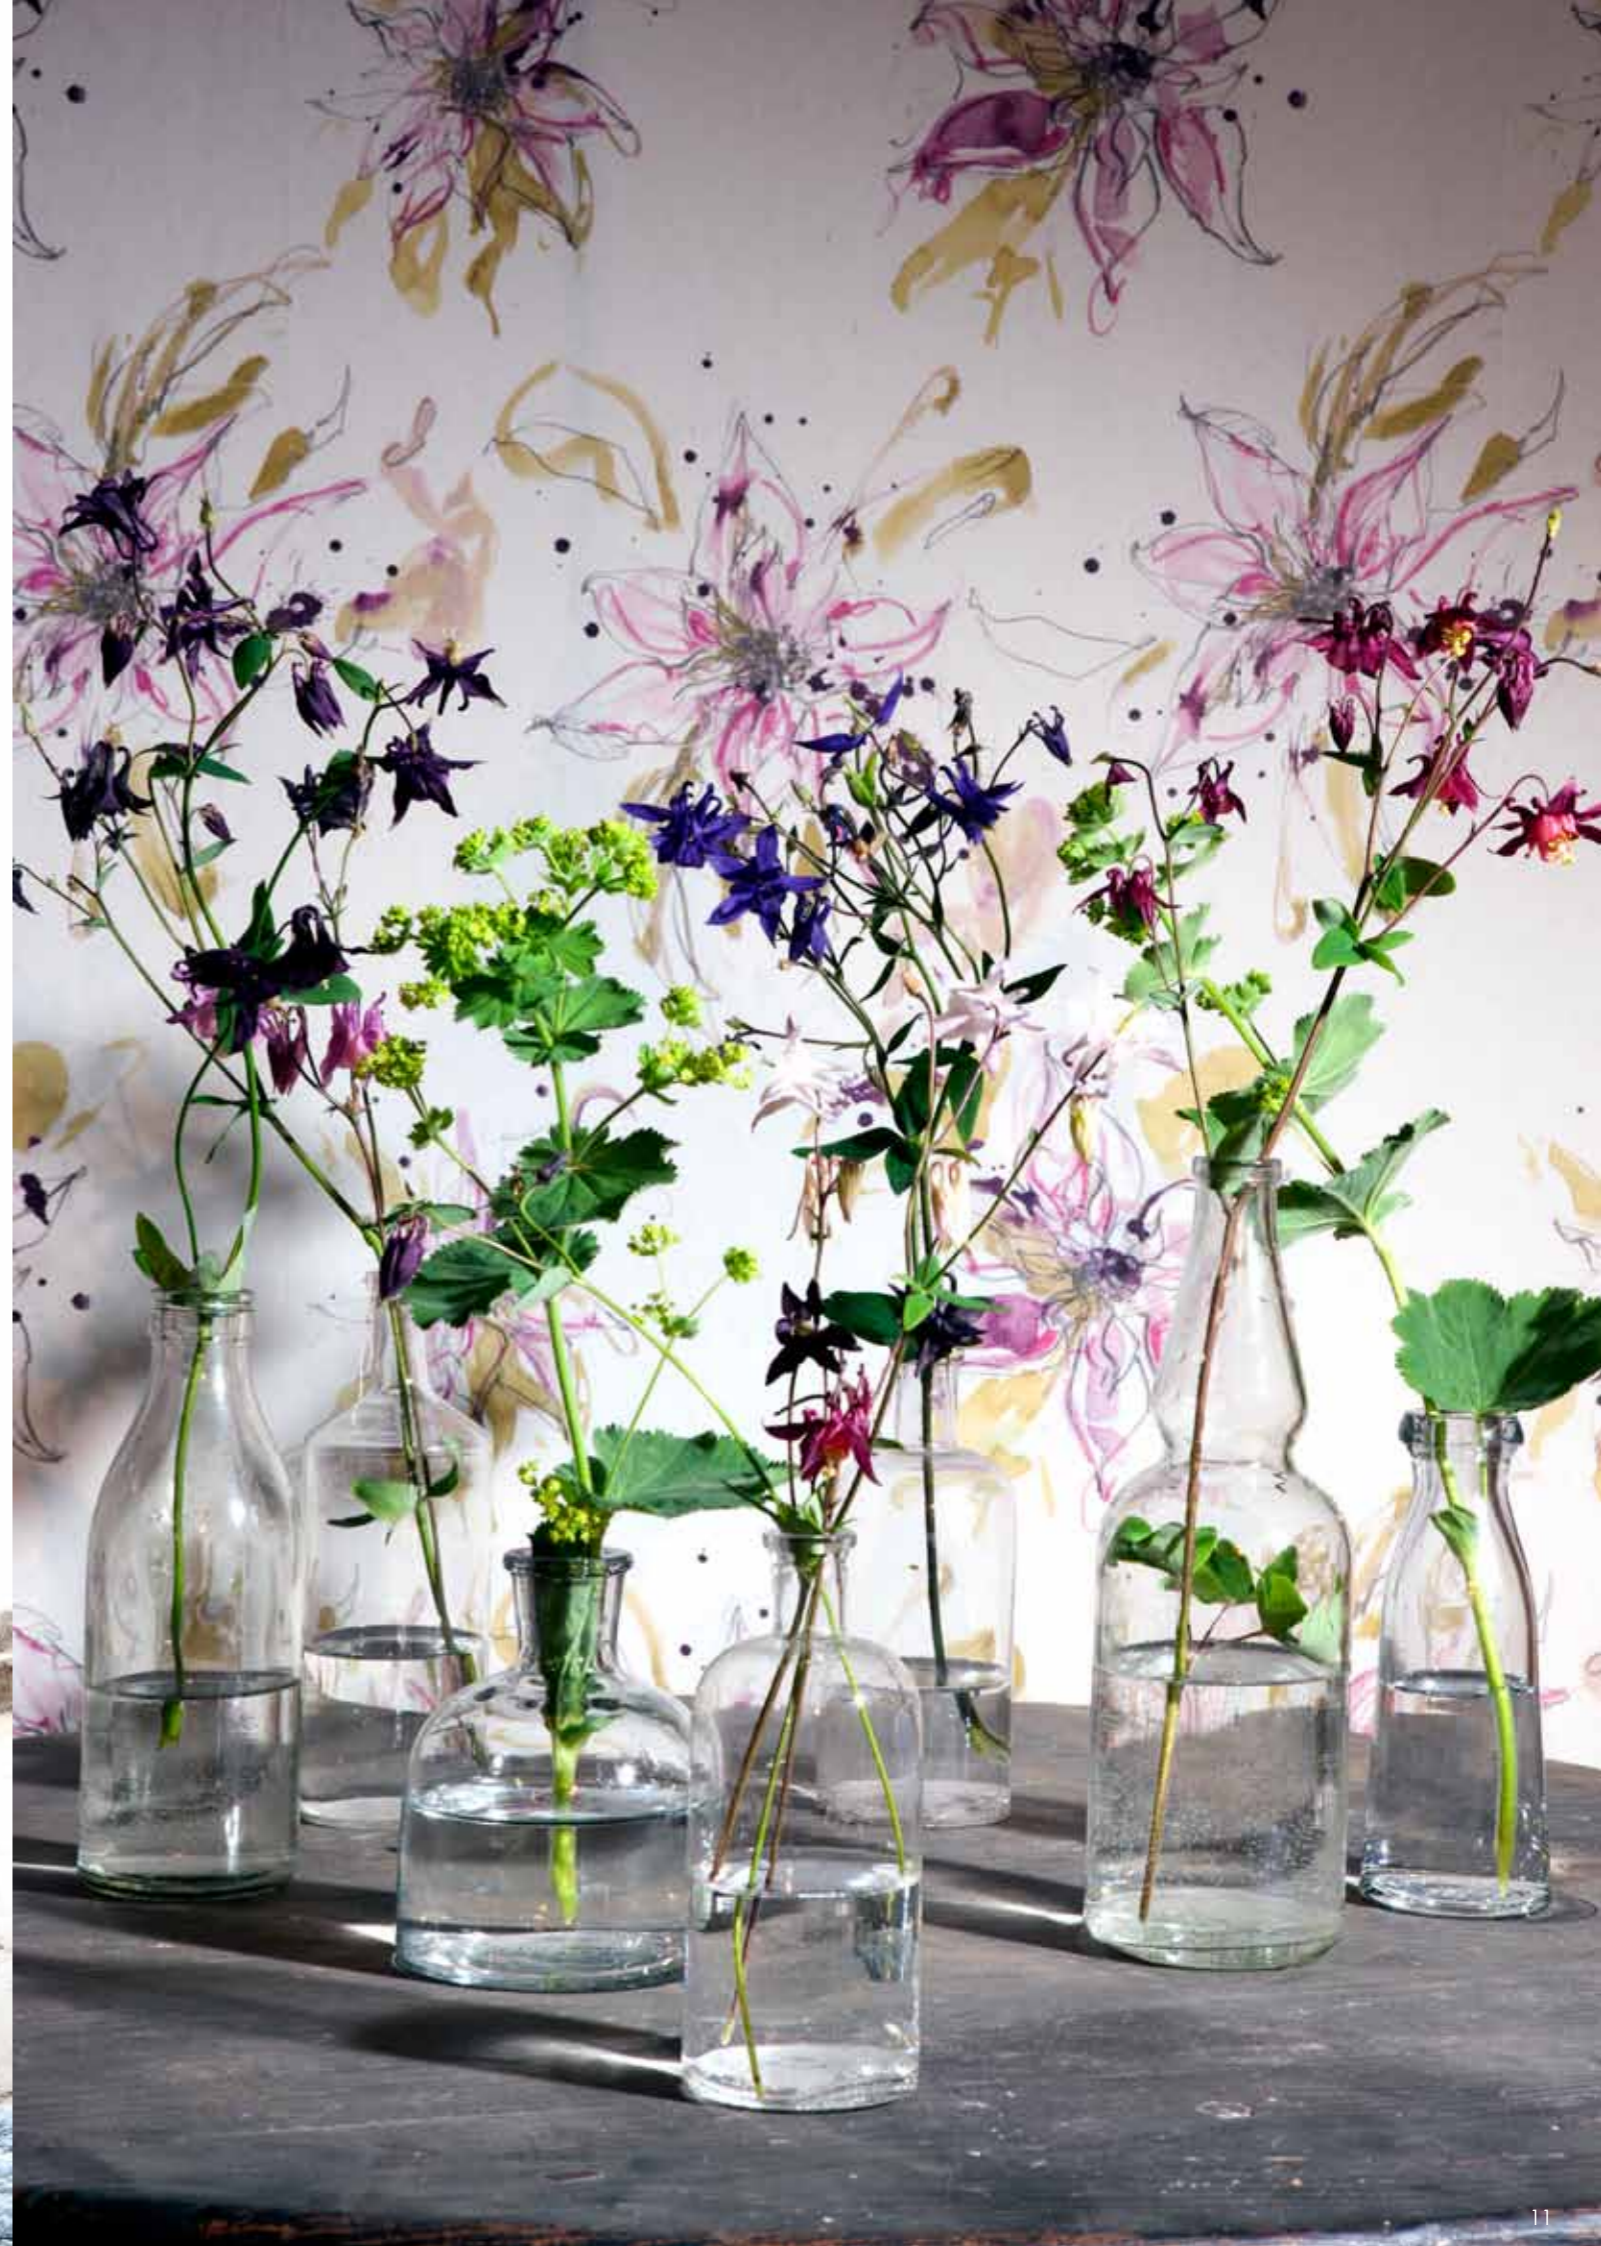

Poinsettia

A poinsettia illustrated with Amelie's characteristic hand touch. This print is our tribute to all perishable objects and trends which the convention only give 15 minutes of fame when they really deserve so much more...

Granny's flower

A cyclamen illustrated with Amelie's characteristic hand touch. This print is our celebration to all grandmothers who have cared and nurtured this delicate plant, which unlike us Scandinavians, thrives during winter and sleeps during summer.

Toile mesdames

Toile du jouy illustrated with Amelie's characteristic hand touch. With this "weave of life" we want to encourage you to thrive in daydreaming and dare to let go in the arms of your loved one. Most important of all - do not forget to spend time with your friends - that is truly therapy for free while enjoying a glass of champagne!

True luxury; Give a bit more
than you take. Dance like nobody
is watching. Sing like you do in
the shower & sleep in the arms
of your great love.

The Amelie Hegardt Collection

It was love at first sight when mimou saw Amelie's illustrations for the first time. After working closely together, we proudly present this collection of wallpapers and handprinted cushions, created with love, laughs, tears and an occasional glass of wine.
