wallpaper guide

2010 - 2011

This is a guide to our 63 various wallpapers.  
All of them produced in Sweden, most of them surface printed  
the old fashioned way.  
We love to combine modern design with traditional workmanship.  
These two joined together create walls to be enjoyed for a long time,  
walls that carry memories.  
Just remember the old saying – if only walls could talk,  
well we say – maybe they can.  
Enjoy!
